SENATOR CURTIS "PRINCIPAL" MENTIONED IN CODE MESSAGE

Republican Whip Identified as Mysterious Person Referred to in Telegrams to McLean

IRA E. BENNETT TESTIFIES

Editor McLean's Paper, Washington Post, Reveals Conference With Attorney General

WAS HELD ON FEBRUARY 14

Committee Also Learns Identity of Other Persons Mentioned in Messages

(By United Press)

Washington, March 7.—Senator Curtis, Kansas, Republican whip of the senate, today was identified as "the principal" mentioned in messages sent E. B. McLean, Washington publisher, at Palm Beach by Ira E. Bennett, editor of McLean's newspaper, the Washington Post.

At the same time, Bennett testifying before the senate oil committee revealed he had a conference with Attorney General Daugherty on February 14 about the oil investigation.

Identification of "the principal" had been the cause of speculation for some days. Senator Heflin, Alabama, said in the senate Tuesday that he believed "the principal" was President Coolidge.

The first message in which Bennett mentioned "the principal" was dated February 29, and said:

"Saw principal. Delivered message. He says greatly appreciates and sends regards to you and Mrs. McLean. There will be no rocking of boat and no resignation. He expects reaction from unwarranted political attacks."

"Bennett"

"Another message needs a little explanation, Mr. Bennett," said Walsh in taking up this message and reading it aloud.

"Who is the principal?"

"Before I give you the name I'd like to say that the message might be misconstrued. The first sentence about the principal had nothing to do with the rest of the message. About 'no rocking of boat' and 'no resignations'—that was my own opinion gathered at a White House press conference.

"The Principal" was Senator Curtis of Kansas."

The committee today began to tear away the veil of mystery surrounding many of the telegrams exchanged between Edward McLean, Washington publisher and his employees in Washington, while McLean at Palm Beach was doing his utmost to avoid being put on the witness stand in the oil investigation.

From Bennett also the committee first learned that a person referred to in the telegrams as "apples" was Albert B. Fall, former secretary of

DAUGHERTY UNSHAKEN IN HIS DETERMINATION

Attorney General, After Cabinet Meeting, Says That He Has No Statement to Make

CLOSED WITH COOLIDGE

(By United Press)

Washington, March 7.—Unshaken in his determination not to quit office under fire, Attorney General Daugherty came back to Washington today to face renewed demands for his resignation and to plan his defense before the senate committee which next week will begin investigating him.

Daugherty arrived shortly after 10 a. m., and went directly to the cabinet meeting. He said he had no statement to make.

"I have not talked since I left Washington and I'm not ready to begin talking—yet," he said.

After the cabinet meeting, Daugherty remained with President Coolidge for a few minutes.

When he came out, he was asked if the situation had changed.

"How do I know?" he responded. "I haven't seen anybody."

Daugherty went from the White House to his office.

RAIL TRAFFIC RESTORED

Wreck at Railroad Intersection Cleared up Thursday Afternoon

Traffic on the big Four railroad was restored through this city Thursday afternoon shortly after two o'clock when the wreckage at the intersection of that railroad and the C. I. & W. road was cleared away by using a large crane from an Indianapolis wrecking crew.

The wreck at the crossing happened yesterday morning at 8 o'clock, when a car loaded with crushed rock, jumped the rails, and turned over on its side. Trains on the road were delayed until after the wreck was cleared, and the Nickel Plate road also was blocked several hours. Trains on the C. I. & W. roads could pass the wreckage by using a side track.

TWO SOLONS DENY THEY ARE GUILTY

Representatives Zeihlman of Maryland and Langley Of Kentucky Take Cognizance of Gossip

CHARGES ARE BANDIED ABOUT

Both Demand Specific Accusations, Declaring They Are Prepared To Answer in Detail

By Frazer Edwards
(U. P. Staff Correspondent)

Washington, March 7.—Arising to a question of personal privileges in the house today Representative John Langley, Kentucky, whose name has been connected by rumor with evidence of wrong doing presented to the Chicago Grand Jury, declared he had committed no crime or wrongdoing.

"I can not enter a specific denial of the rumors circulated about the capitol because I am not aware of the evidence presented," Langley said. "I confidently rely on a speedy vindication at the hands of my colleagues. I insist on an immediate investigation of the charges."

Langley demanded that a committee be appointed to delve into the allegations and bring the truth to light.

Washington, March 7.—Harrassed by knowledge that their names were being bandied about the halls of congress in sensational gossip, Representatives Frederick Zeihlman, Maryland and John Langley, Kentucky today came forward with statements denying they are the "two congressmen" involved in evidence of bribery laid before a Chicago grand jury.

Both Zeihlman and Langley demanded specific charges, saying they are prepared to answer in detail. Their voluntary statements followed adoption of a resolution calling on the department of justice to give the house the names of the two congressmen involved in the Chicago grand jury disclosures and the charges against them.

The two congressmen admit they are being mentioned as those investigated, but deny they are involved.

Zeihlman, Republican, sixth district Maryland declared:

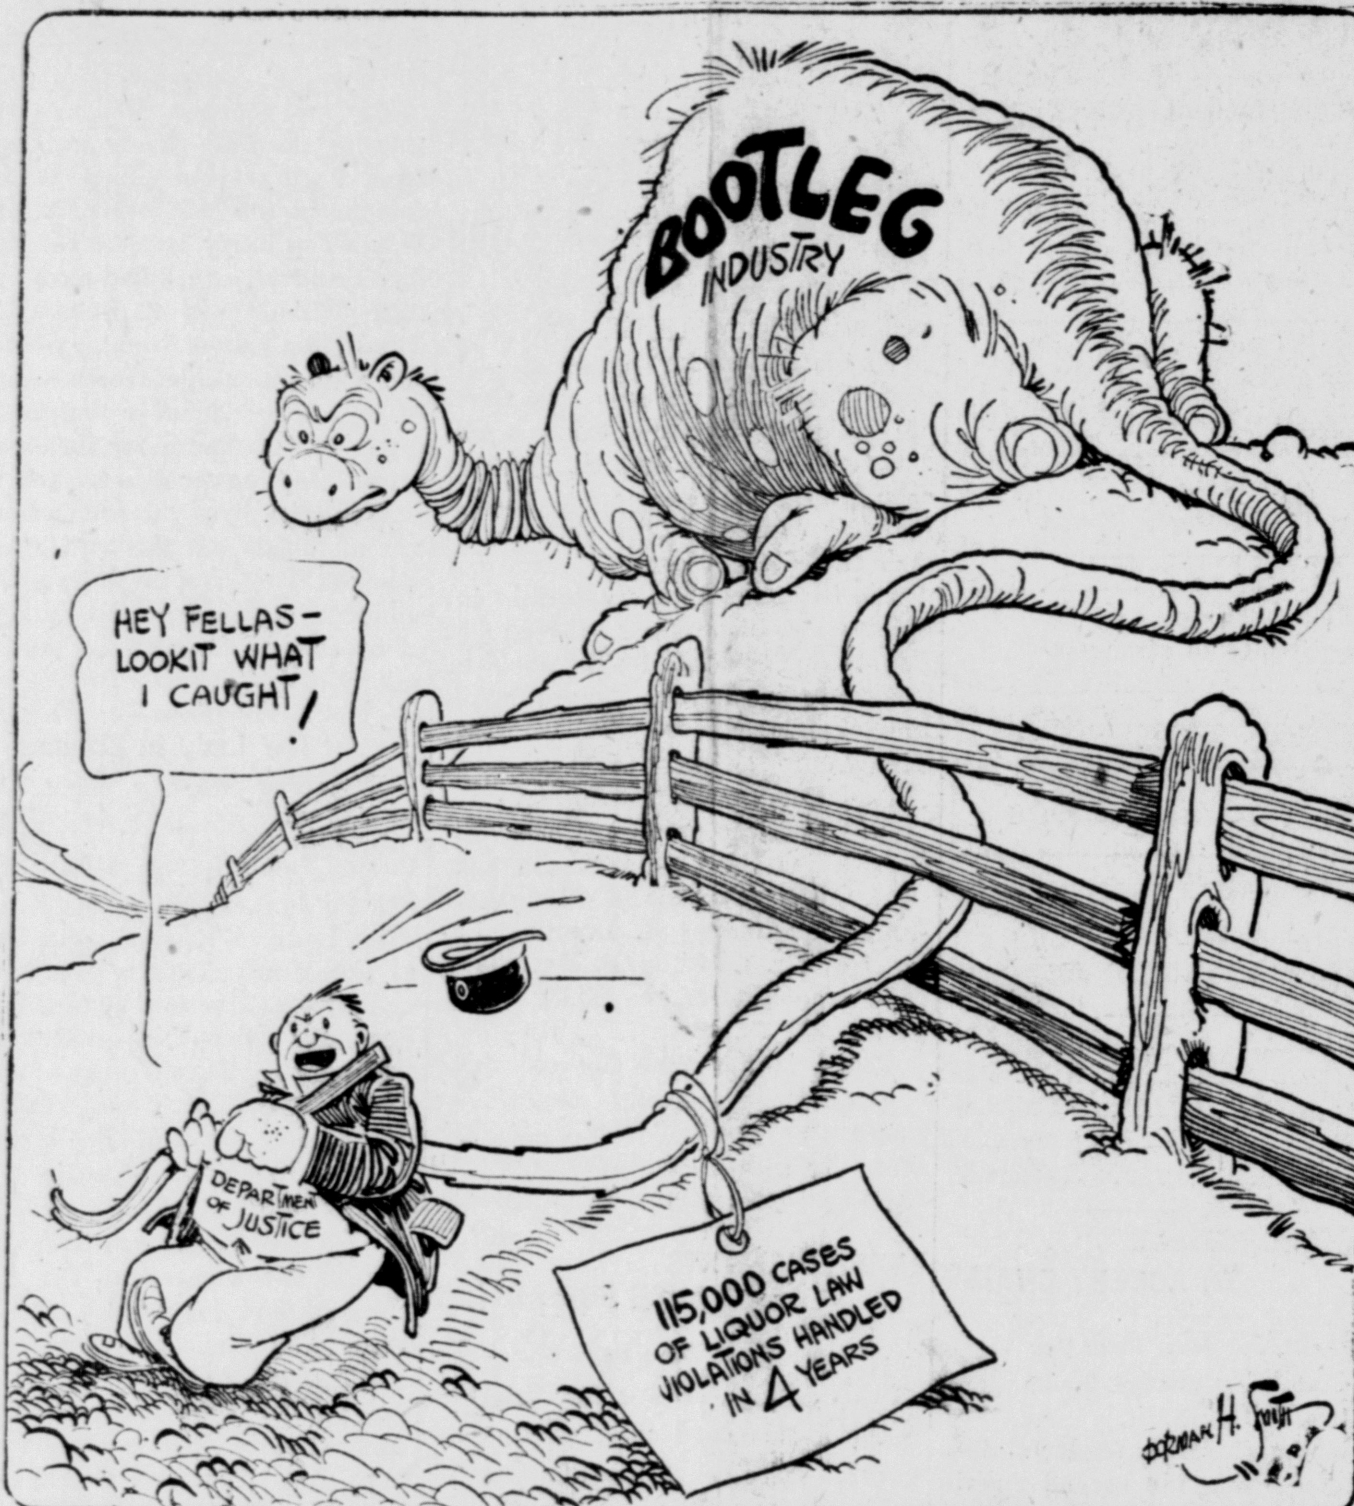

"When specific charges are made, if they are, I will make a statement in reply to them. Until such charges are made, I ask the public to withhold judgment on me."

Langley, Republican tenth Kentucky district, said:

"I am told that my name has been mentioned in connection with charges growing out of the Chicago grand jury investigation. I know I have not accepted any money or done anything improper. I have no further statement to make unless specific charges are made, when I will answer them in a way that will be comprehensive and unmistakable."

Zeihlman and Langley are two of three Republican congressmen whose names have been mentioned in gossip ever since the Chicago grand jury

HAS BEEN MUSTERED OUT

151st Infantry Unit Organization Here About Three Years Ago—Enlistments to Expire Soon

(By United Press)

Indianapolis, Ind., March 7.—Company C, 151st Infantry of Rush County, was mustered out because of inefficiency of officers, adjutant General Harry B. Smith said today.

Smith refused to divulge charges against officers and members of the company.

Will B. Brann, captain of Company C, the Rushville guard unit, which has held the midnight recently on account of alleged thefts at the armory stated today that he had received no official word that the company was to be abolished.

Capt. Brann said that he had received a communication yesterday from Indianapolis to the effect that the action would be recommended and that he fully expected to receive orders any time that the local company would be ordered disbanded.

The government holds a lease on the present armory, located at the south end of Perkins street, until September 21, this year. The building is owned by Wade Sherman, formerly

COLDER WEATHER TONIGHT

Mercury Expected to Range From 10 to 15 Degrees Above

A typical March blizzard was ushered in during the night with a snow storm, and colder weather, and indications tonight are for colder weather, with the mercury ranging from 10 to 15 degrees above zero.

The rain Thursday was followed in the night by strong winds and colder weather, and in the early morning hours the rain turned into snow, bringing a real March blizzard with it. The west wind continued all day, but the snow was gradually melting, and had about gone this afternoon. With the colder weather in sight for tonight, it is also predicted that fair weather will prevail. The coldest during last night was 18 degrees above zero, and tonight it is expected to drop a little colder.

TOBACCO SELLER IS FINED

Rufus Rhodes of Mays Arrested in County-Wide Crusade

One more person has paid a fine in Justice Stech's court for selling tobacco to minors, it was stated today, when Rufus Rhodes of Mays paid \$10 and costs, amounting in all to \$17.75. The defendant is employed at the store owned by C. S. Harter of Mays. It was said that another affidavit was to be served soon at Mays.

The crusaders against tobacco-selling to minors, stated today that there is a double penalty for transporting cigarettes by minors from another town, and that they had received several "tips" that minors were leaving Rushville and going to other towns for tobacco. In such cases, the minors may find themselves in court, the officers announced.

FIRST CHANCE TO FILE DECLARATION

Several Candidates Who Have Previously Made Known Their Intentions Comply With Law

ALLOWED UNTIL APRIL 5

Two Presidential and Eleven Gubernatorial Candidates in Indiana Primary Free-For-All

Today was the first day for candidates to file their declaration for county offices, with Loren Martin, county clerk, and several of the candidates who have previously announced themselves, appeared today and made the necessary application. Those who expect to be candidates in the primary election May 6, have a month in which to file their applications. The last day for filing is April 5.

The primary law in Indiana also sets today as the last opportunity for filing petitions in the primary election with the secretary of state for candidates for president, vice-president and governor.

Activity in the county political parties is expected to hum during the next few weeks, as both parties will probably have many candidates out for the various offices. So far the greatest number entered in any one race is in the Republican primary for the office of county clerk, as five persons have announced their intentions of seeking the nomination.

Indianapolis, Ind., March 7.—With two presidential candidates and eleven gubernatorial candidates in the free-for-all race, the time for filing petitions to have candidates names placed on the primary ballots will close today.

Calvin Coolidge and Hiram Johnson are entered for the Republican

Chicago, March 7.—Independent oil concerns today were fearful of a gasoline war price between the Standard Oil of Indiana and the Sinclair oil company.

Witnesses before the investigators, for the most part, have been Rushville people, with several others from points in the county.

In spite of the trials and tribulations that beset her life in the little village where her aunt lives, she manages to find something to be glad about, and brings light into sunless lives. Finally Pollyanna straightens out the love affairs of her elders, and last, but not least, finds happiness for herself in the heart of Jimmy. Indicates Capacity House For Odd Fellows Benefit Here Monday Night

The seat sale for the Ethiopian Minstrels staged by the Square and Compass Club of Connersville, under the auspices of the Odd Fellows of this city, opened with a rush this morning and a capacity house is assured.

The show comes highly recommended and while it is a home talent organization, it has some professional talent in the east and several performances have been given, thus assuring a more finished production than ordinarily would be expected from a company of that character. The proceeds will be used for refurbishing the Odd Fellows hall, recently destroyed by fire.

URGES ALL PEOPLE TO ACCEPT CHRIST

Dr. H. H. Halley Asserts Everyone Should Have Christ in Their Mind Much of The Time

READS THREE EPISTLES

Bible Reader Will Close Series of Meetings Tonight With the Book of Revelations

At the beginning of the service at the St. Paul's Methodist church Thursday evening, Dr. H. H. Halley, the Bible reader, again urged people to accept Christ as their Saviour. He urged people to be affectionate toward Christ, not merely accept Him and think that "you are saved, without any further effort on your part."

Dr. Halley expressed the belief that everyone ought to have Christ in their mind a great deal of the time, or in fact all the time. He also urged that people make it a habit of serving their Master, of reading the Bible and of attending Sunday School and church services. Christ wants to transform your life and there will come a time when you will have to make your decision, he said.

He read the two epistles of Peter and the book of Hebrews at the meeting last night and tonight he will close his series of readings with the Book of Revelations. It is expected that the church will be filled with people tonight, as his reading and interpretation of Revelations draws big crowds. The attendance last night was not quite so large due mostly to the inclement weather.

In his explanation of First Peter, Dr. Halley stated that the Epistle was written probably about the year 65 to the churches of Asia Minor, which had been founded by Paul, and while Nero's persecution of Christians was in progress. Nero burned Rome in the year 64, and to divert suspicion from himself, he accused the Christians and instituted the first persecution that the church endured at the hands of Rome.

Peter wrote this epistle to encourage the Christians to endure, to be careful that no possible charge of rebellion against Rome be brought against them. He urged them not to become angry but to win by the beauty and harmless of their lives. He wanted to impress upon them to remember that they were citizens of an Eternal Kingdom to be revealed in the last time.

Dr. Halley in commenting on this Book stated that he thought this epistle was one of the most beautiful

AUTO FINANCING CONCERN IS FORMED

Continental Securities Company Organized With Local Men As Backers—After Location

TO HANDLE AUTOMOBILE PAPER

The Continental Securities company has been organized here, with Rush county men as its backers, it was announced today, and a first floor location in the business section of the city is being sought.

The company will be an automobile financing corporation and will handle the paper of automobile dealers which they accept in part payment on automobiles.

The company expects to finance the automobile paper of Rush and five adjoining counties, with headquarters in Rushville, and has arranged for refinancing up to \$200,000, it is stated by representatives of the company.

The local organization will have the backing of the Carter Guarantee company of Kentucky, which has been in the automobile paper financing business for six years. This concern's success has been due, it is asserted to its being able to discount the negotiable paper.

Representatives of the company say that they will keep in Rushville much of the automobile sales financing that has been going elsewhere. The concern will deal exclusively in automobile paper and will handle short term paper that the banks can not take care of, due to the great amount of clerical work involved.

Don't let constipation make you an invalid —relieve it with Kellogg's Bran

Few people realize how dangerous is constipation until this dread disease tears down their health. Did you know that more than forty serious diseases can be traced to constipation?

Keep your health, or restore it, with Kellogg's Bran, cooked and krumbed. It brings relief in mild and chronic cases of constipation. It is effective because it is ALL bran. That is why it is recommended so highly by doctors. They know that only ALL bran can bring 100 per cent results. Part bran is, at best, only a halfway measure.

If eaten regularly, Kellogg's Bran will bring permanent relief—even in the most chronic case. It is guaranteed to do so. If it fails, your grocer will return your money.

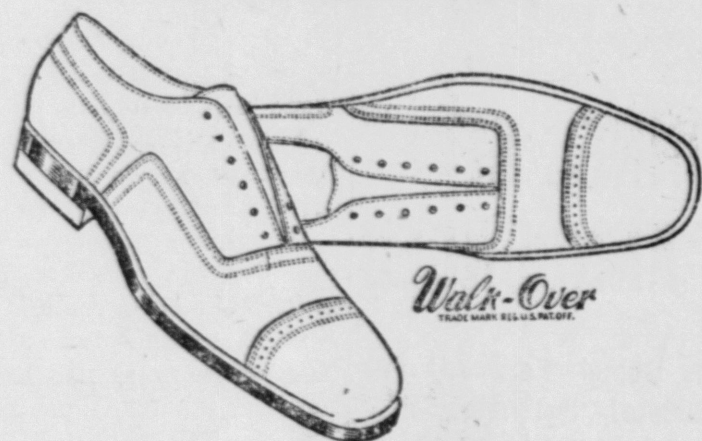

Because it is ALL bran it sweeps, cleans and purifies the intestine. Like nature, it acts naturally. It makes the intestine function regularly.

Eat it every day—two tablespoonfuls—in chronic cases, with every meal. Eat it with milk or cream. Sprinkle it over other cereals. Cook it with hot cereals. Enjoy it in those wonderful recipes given on every package.

The flavor of Kellogg's Bran, cooked and krumbed, is delicious. It is crisp, nut-like. Quite different from ordinary bran, which are so unpalatable. Kellogg's Bran is made in Battle Creek and served by the leading hotels and clubs everywhere. Sold by all grocers.

URGES ALL PEOPLE TO ACCEPT CHRIST

Continued from Page One
of the New Testament books and urged people to read it.

Continuing, the Bible reader stated, that Peter wrote his second epistle shortly before his death, to warn of coming apostasy, in which teachers in the church for money considerations, would permit licentiousness and the church would cease to look for the Lord's coming. He also wanted to warn that the Lord's Coming may be long delayed, because of God's desires that all be saved.

"Some doubt has arisen as to the writer of the Book of Hebrews," Dr. Halley said, "but in my belief it is the writing of Paul, written about 62 to 63 from Rome to the Jewish Christians in Palestine, who after accepting their Messiah, continued to be very zealous for the temple services. But it had been planned in a few years to destroy Jerusalem and the temple services, because of the corrupt practices of the Jews, and for punishment the Jews were to be scattered throughout the different nations. Paul wrote this epistle to prepare them for the shock, and to explain to them that the temple ordinances and sacrifices were really no longer of any use for they had served the purpose, they had once and for all fulfilled in Christ and passed forever.

"Paul also wanted to impress upon the Jewish people that Christ's covenant had entirely displaced the old Mosaic Covenant. He explained the unity of Christ with man. Man is above angels, they are closer to God. Angels are only servants. Paul closes his writing with a fearful warning if the Jews rejected Christ for any reason, there would never be another Messiah, never another sacrifice for sin."

MOVIES

Last Appearance at Castle

It is not every motion picture director who, when called upon to stage some realistic fight, battle or encounter, is enabled to call into use some of the actual participants of a similar and more genuine scene, nor be afforded the opportunity of utilizing instruments of fighting which have actually played a part in such an occurrence.

The mutiny staged by Elmer Clifton, producer and director of "Down to the Sea in Ships", which comes to the Castle theatre the last time today on board the square-rigger, "Charles W. Morgan," was in no sense of the word a "strawberry festival", but a real he-man fight. Captain James A. Tilton, engaged as skipper of the

craft, which was engaged for an actual whale hunt in the Caribbean Sea, rehearsed with Mr. Clifton an actual mutiny which he participated in years ago, and which was staged with genuine and realistic fury, Captain participating in the fighting.

"Pioneer Trails" Princess

"Pioneer Trails" will be the attraction at the Princess Theatre today and Saturday. This is a David Smith production and has a notable cast, including Cullen Landis, Alice Calhoun, Bertram Grassby and Otis Harlan.

The story opens with a prologue showing the Dale family starting out from a midwestern village to seek a fortune in the gold fields of the far West. The party is attacked by Indians and all are killed save Jack, four-year-old son of Robert Dale. The action jumps twenty years and the main story opens with a number of dramatic sequences that keep the interest high. There are thrills, humorous situations and just a touch of pathos that gives the production flavor and makes it throb with human interest. The love theme is given an unusual treatment in that the heroine is required to do much of the courting.

"The Lady in Ermine"

Beginning Monday night, March 10th with a Shrine Party, and continuing for only one week, the delightful and enchanting musical play, "The Lady in Ermine" will be seen at the Murat Theatre, Indianapolis under the direction of the Messrs. Shubert. New York critics named this play, "The Worthy successor to 'Blossom Time' and 'The Wonderful daughter of 'The Merry Widow.' There will be matinees Wednesday and Saturday.

"The Lady in Ermine" was an international success on the Continent and had long runs in London, Paris and Vienna. Its Continental success was duplicated in New York last season where it was seen at the Ambassador for one year. It comes here direct from its Chicago run of several weeks with the distinguished New York Winter Garden Company of singer and dancers, headed by Broadway's handsomest and most youthful star, Walter Woolf, baritone, Harry K. Morton, comedian, Zella Russell comedienne, Nancy Gibbs, prima donna, Shirley Sherman, Clarence Harvey, Rollo Grimes, Jr., Gladys Walton, Detmar Popen, Timothy Daley, Isabelle Rodriguez and one of the largest ensembles on the stage today. There are sixty in the cast.

The twenty-two lilting and haunting musical numbers were composed by Jean Gilbert and Alfred Goodman, well known composers who have been responsible for many song hits. The book of "The Lady in Ermine" is by Frederick Lonsdale and Cyrus Wood, from the story of Rudolph Schanzler and Ernest Wellisch. The lyrics are by Harry Graham and Cyrus Wood.

99.9 Per Cent Efficient

Constant vigilance goes hand in hand with safety on the Pennsylvania Railroad. Thousands of tests are made every month to insure the observance of signals and operating rules by the men in charge of trains. During the last half of 1923, 493,000 such tests were made.

Some of the situations covered by these tests are the observance of "stop" and "caution" signals, the proper display of signals, the observance of speed regulations and the proper flagging of trains. This system has been in effect on the Pennsylvania Railroad for many years. It is designed to cover not only every conceivable development in ordinary operating conditions but also surprise situations not usually encountered.

It is a splendid tribute to the efficiency and the high morale of Pennsylvania employees—and a source also of profound satisfaction to the traveling public—that the results of these tests show that the number of "failures" is relatively insignificant—the record over a long period of months showing a 99.9 per cent performance.

THANKFUL FOR ASSISTANCE

Circleville Residents Express Appreciation For Help in Fire

Residents of Circleville whose homes were endangered last Monday afternoon when the Michael McDonald house burned to the ground, joined in issuing a statement today, thanking all those who worked so zealously and prevented the fire from spreading to adjoining property.

They thanked not alone the Rushville fire department, but the scores of volunteer fire fighters who came to their rescue.

The fire loss has renewed discussion among residents of the suburb concerning plans for fire protection. In some quarters, it has been suggested that a fire cistern be put down in the center of Circleville and a ditch be run from Flatrock river to supply it with water.

FRIDAY, MARCH 7, 1924

I have fought a good fight, I have finished my course, I have kept the faith. Henceforth there is laid up for me a crown of righteousness.—2 Timothy 4: 7.

Thought Broadcasting

When they begin reading our thoughts by radio, which is not outside the pale of possibility, according to eminent physiologists, we will have to watch our step.

No longer can we think what we please of our enemies; no longer can we covet our neighbor's earthly possessions; neither can we envy our friends' expensive automobile, their success in life, or their costly homes.

Folks who thrive on secret hatreds which they harbor against those they dislike; who bear grudges on account of fancied wrongs, who store up in their moments alone, hard thoughts about people with whom they disagree—all of these will have to change their method of thinking.

Sounds ridiculous, and it may be improbable, but it's not impossible, that our innermost thoughts may be read as plainly as though we were writing them down on paper.

Some experiments have been conducted along this line. Thought-broadcasting was tried the other day by Northwestern, Antioch and Columbia universities' professors, and although 150 letters picked at random out of more than 4,000 received, with the exception of two correct replies to one test, were wide off the mark, the physiologists are reported not to be dismayed in the least.

The idea of projecting one's thoughts into the minds of tens of thousands of radio fans is novel, if not altogether practical, and shows what may be developed from radio in the not far distant future.

In one test, a professor pinched

the fourth finger of his left hand and then told his invisible audience he had a pain in one of his hands or arms. Two of the 150 letters located the exact spot; nearly eighty percent of the total placed it in the left arm.

The professor ate a beet and announced he was eating a morsel of food. Nearly everything except beets was mentioned. The professor then announced he was thinking of a number—664. Not a single answer was correct, although 994 and 499 were plentiful. Then the professor thought of a walrus and asked his audience to think of the animal pictured in his mind. Nearly every animal in a well-stocked zoo was named but not one thought of a walrus. Zebras and elephants led the procession.

All the letters will be opened, indexed and compared in the hope of showing a higher batting average for thought transmission and reception. Whatever the result of the tests, they will not be regarded as conclusive and the experiments will be carried further.

Don't Play Politics

The two most urgent public questions at present time are tax reduction and dealing with corruption which has been unearthed in official circles in Washington.

President Coolidge feels with all his fellow countrymen a depressing sense of humiliation at the gross betrayal of public interest that has been disclosed.

The taxation question as well as law or criminal action of officials performing public duty is a problem for both Republicans and Democrats. The people of the whole United States have an interest from the standpoint of lessening tax bills and securing honest administration of public affairs regardless of what party is in power.

The pity is that self-seeking politicians will attempt to use present situation to further political ends rather than to advance the best interest of our government.

We must register our approval of honest public officials and demand tax reduction if we expect to eliminate dishonesty in public office, or increasing tax bills.

Air Fund Restored

The Senate has restored to the post office appropriation bill the item of \$1,500,000 for maintaining the transcontinental air mail service through the next fiscal year. That is the route running from New York to San Francisco by way of Chicago and Omaha. The expediting of important mail by means of the airplane is greatly to be desired, but that reason for continuing the air mail service is perhaps not so important as the need for stimulating popular interest in aviation as a means for national defense. When the air mail is in operation there are a number of skilled pilots ready to take their places in our military organizations, the airplane industry is aided to the extent of supplying the postal needs, and improvements in the art of flying are suggested from time to time. From every point of view it is desirable that the air mail service shall not be abolished.

Good News For Ailing
Women

Much has been said for and against proprietary medicines by the medical profession. It will interest every woman to know that in a recent country-wide canvass of over 121,000 purchasers of Lydia E. Pinkham's Vegetable Compound as to the results received from its use, the replies received showed that ninety-eight out of every one hundred women had been benefited by its use. Therefore every sick and ailing woman owes it to herself to give this remarkably successful remedy a fair trial.

The Difference In
COST of COFFEE

WHEN comparing prices of coffee—consider the cost PER CUP, not the price per pound!

If Phoenix Coffee made only as many cups per pound as cheaper coffee, the difference in cost per cup would be:

50 cups to a pound at, say, 50¢ per pound - 1¢ per cup
50 cups to a pound at, say, 40¢ per pound 4 1/5¢ per cup

A saving of one-fifth of a cent per cup—
But what a difference in the taste!

But—PHOENIX COFFEE makes more cups per pound than cheaper coffee, because it comes to you *Vacuum Packed*—fresh as the hour it was roasted—it's full strength and flavor preserved.

REGIONAL BATTLES
WILL OPEN TONIGHT

HITTIN' 'EM AND MISSIN' 'EM

Regionals Open Tonight
Tonight opens the four regional tournaments. The one that holds the interest for Rushville more than any of the other three, is at Richmond. Shelbyville, Anderson and Muncie, the three strongest teams in the state will be in action. Muncie and Shelbyville both can't win. The following is the schedule which begins tonight:

Friday
7:30—Anderson vs Stony Creek.
8:30—Arcadia vs Shelbyville.
Saturday
9:00—Mooreland vs Muncie.
10:00—Versailles vs Connersville.
11:00—Clayton vs Jeffersonville.
2:00—Morton vs Southport.
3:00—Winner at 7:30 vs Mt. Comfort.
8:30—Winner at 10:30 a. m. vs Winner at 11:00 a. m.
Winners of the 2:00, 3:00, 7:30 and 8:30 o'clock games go to the final tournament at Indianapolis, March 14 and 15.
Officials for the games will be Dale Reagan and Hugh Vandiver.

Dear Hittin' 'Em—Where does Arlington figure in this dope sheet for the girl's tourney? Someone says Arlington has practiced on a large floor every day this week and against a strong team too. Anyway, they'll bear watching.

That booster club is on the job good and strong. They're gonna send a band to Richmond. Atta boy, boosters. Keep it up.

Dear Hittin' 'Em—New Salem doesn't have any school any more this week. They just let their girls have the whole building, the whole time. Do they practice? Not for two weeks! Don't you believe it? Anyway they'll bear watching.

Same Dumbell
Two of the strongest teams in the state, Anderson and Shelbyville, will be seen in action against Stony Creek and Arcadia, respectively Friday night in the first session of the Earlham regional, says the Richmond Palladium. It would have been much better for Stony Creek and Arcadia, if they had met instead.

The Ikimiks Are Crossing The Bridge Before Time

Safe Fat Reduction

Reduce, reduce, reduce, is the slogan of all fat people. Get thin, be slim, is the cry of fashion and society. And the overfat wring their hands in mortification and helplessness; revolting at nauseating drags, afraid of violent exercise, dreading the unwelcome and unsatisfying diet, until they hit upon the harmless Marmola Prescription and learn through it that they may safely reduce steadily and easily without one change in their mode of life, but harmlessly, secretly, and quickly reaching their ideal of figure, with a smoother skin, better appetite and health than they have ever known. And now comes Marmola Prescription Tablets from the same famous formula as the Marmola Prescription. It behooves you to learn the satisfactory, beneficial effects of this great, safe, fat reducer by giving to your druggist one dollar for a box, or sending a like amount to the Marmola Company, 4612 Woodward Avenue, Detroit, Mich., with a request that they mail to you a box of Marmola Prescription Tablets.

Muncie are scheduled to clash in the first game and Connersville will tangle with Clayton in the second game. Some basketball we'd say.

—Connersville News

Over at Connersville there is a team named after Side Lights. Wonder if they play anything like the old Tail Lights. How about it, E. I.?

JUST WHAT WE NEED. ALSO

Muncie will have a new \$125,000 gymnasium next year. After waiting for several years, Muncie finally saw the light and will build this spring. The new gym will seat nearly 5,000 people and will be quite a relief after having all the games in the high school gym which is too small and at the auditorium where the rafters hang down almost to the floor.

This Ought to be a Real Mix-up

Dear Hittin' 'Em—

One of the feature games of the season will be played at Blue Ridge Friday night when Moscow plays Milroy. It is an independent game, but high school players will be in the line-up. For Milroy the list includes Green, McCorkle, Ruddell, McKee and Osterling. For Moscow the line-up will be N. Gosnell, P. Gosnell, C. Gosnell, T. Tillison and P. Tillison. Milroy high school eliminated Moscow from three tourneys and Gosnell-Tillison brothers have taken it upon themselves to avenge these defeats. However, it will be a hard game for both teams as every player is an experienced basketball player. Means will officiate.

Yours, B. D. M.

Dear Hittin' 'Em—

Someone said that Orange and Fairview want a Fayette county team to win the girls tourney here Saturday, so they both came in and practiced on the Modern Appliance floor Wednesday afternoon. "Anyway Peaches Henry will bear watching."

March 4

Dear Hittin' 'Em—

I want to thank you for the fairness with which you have conducted your column. I wish to add also that I was greatly shocked at seeing Rushville beaten in the sectional. We were certainly sorry that Rushville could not go further as this undoubtedly cut the attendance.

During my observation of every game played in the sectional, I was tempted to pick the star players as I saw them. In considering the all-around playing of the stars, I rank them as follows:

1. Gosnell, Moscow; 2. Baker, Manilla; 3. McNamara, Rushville; 4. McCorkle, Milroy; 5. Green, Milroy; 6. Helligoss, Rushville; 7. Tillison, Moscow; 8. M. Craig, Raleigh; 9. Comella, Rushville; 10. Readmrad, Milroy.

Yours, Fannie Fandom

Dear Hittin' 'Em—

Do you remember that old stall (in the county barn) that Rushville pulled when she played Greensburg just before the county tourney? Carthage girls are trying something similar. They say two of their best players are sick. "Anyway we bet they have some good reserves and will bear watching."

Yapping at Fight Managers

By HENRY L. FARRELL
(United Press Sports Editor)

New York, March 7.—Dan Hickey, the veteran fighter, who is now teaching boxing at the New York Athletic Club, must be coming to the conclusion that in the handling and development of a young fighter it is impossible to be right with the public.

Hickey recently went to work with a young wrestler, Paul Berlenbach, who had come to the conclusion that there was no money in the grappling game and that the dough was in punches instead of holds.

Taking him slowly and teaching him carefully and thoroughly, Hickey brought out Berlenbach and produced a middleweight sensation. He ran up a list of twenty-four consecutive knockout victories. The victims, of course, were not prominent in the record books.

Advised on one side not to rush the youngster by throwing him in with experienced fighters, Hickey followed the natural impulse to build slowly on a solid foundation and he matched him with setups. All he got was the razberry.

Violent protests were made that Berlenbach should not be exploited as a mauler as long as he was mauling only punching bags and an open demand was made that the fans should have to pay only to see him against a fighter who could give him something.

Hickey wisely closed his ears and went on giving his fighter the kind

of work he thought would benefit. He knew if he dropped him in with an old head who would make him look bad, he would destroy the confidence that the youngster was getting in himself and that he might permanently spoil him. It is much better to hear them howling for reasons why he was not fighting good ones than to hear himself condemned for raising a good boy by asking too much of him.

In the fight business it seems that the gallery is not willing that a youngster should get a chance to learn. There are no demands made upon a baseball manager to send his prize rookie in to bat against the best pitcher in the league, until he has been able to learn something about major league baseball.

Firpo was condemned a year ago when he was beating a lot of setups and when he answered the demand for a fight by signing with Jack Dempsey was criticized for taking a championship fight before he was ready.

The managers and advisers of Floyd Johnston were called fools when they took that promising young heavyweight and tossed him up against the best men in his class without putting him through a building-up process.

After Johnston had been knocked out two or three times he took a long rest and then announced that he was going to try a comeback. He naturally should have been conceded the right to start as he should have started in the first place, with some experience fights, but he was put on the pan for being sacked up against a couple of pushovers.

TANLAC MET EVERY TEST SAYS MRS. HURSELL

Was Languid and So Tired Due to Indigestion Days Work Looked Like Mountain Says Evanston Lady.

"I don't know anything I can get more enthusiastic about than Tanlac," says Mrs. Ella B. Hursell, 2712 Ashbury St., Evanston, Ill., who recently moved here from Chicago.

"Tanlac has been such a great help to me that I don't see how I could have gotten along without it. Before taking it I had no strength. I felt languid and tired and got up mornings feeling so badly that the

duties ahead looked like mountains to me. My troubles were due to indigestion, for I knew nothing but distress after eating.

"I now have a wonderful appetite, perfect digestion and splendid health, with energy and strength that makes life a pleasure. Tanlac is such a grand, good medicine that everybody should know about it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

PURDUE IS OUT OF THE RACE

Eliminated From Big Ten Championship Battle by Chicago

Chicago, March 7.—Basketball championship of the Big Ten lies between Wisconsin, Chicago and Illinois with the elimination of Purdue from the title race here last night.

The Purdue five was defeated by University of Chicago cagers, 35 to 21. At no time was the Chicago quintet in danger.

The decisive tilt of the season is now the Wisconsin-Chicago game, the last of the season, at Madison, March 15. Maroons and Badgers each have lost 3 games. Should the Badgers win all 3 of the remaining games, two with Iowa and one with Chicago, they would win the championship.

BRIBERY ATTEMPT ALLEGED IN CHARGE

Federal Grand Jury Returns Indictments in New York, Charging A Conspiracy

DAUGHERTY WAS APPROACHED

(By United Press)

New York, March 7—A federal grand jury today returned indictments charging conspiracy to bribe against Gaston B. Means, Elmer W. Jarecke, his secretary, and Thomas Felder, a New York attorney, alleging an attempt to bribe attorney General Daugherty and Col. William Hayward, United States district attorney, in connection with the so called "glass factory casket company fraud."

Means' name has been mentioned several times in connection with the senate investigation of oil leases in Washington. He formerly was an agent of the department of justice.

Prisoners convicted in connection with the Glass Casket fraud informed officers they raised \$65,000 when they first learned action was intended against them and delivered the money to Means, Jarecke and Felder on assurance the action could be prevented.

Referring to new code messages read today and signed "Count," Bennett said he was sometimes referred to by his associates as "the Count" because he had been decorated by the King of Italy.

Two new code telegrams to McLean at Palm Beach from a mysterious sender in Washington, who either left the messages unsigned or signed himself "Count" were deciphered for the committee today by W. F. Friedman, army code expert.

Other code telegrams were signed "I. E. B." Ira E. Bennett is editor of the Washington Post, McLean's newspaper.

The messages follow:

"Your medicine is the talk of the town since pulling me from the grave. I have told dozens about it and I know of at least ten who are now taking Mayr's Wonderful Remedy, all with good results. I never saw anything like it. One man who had been operated on for gall stones and had then come back, took it and says his symptoms are all gone now and he swears he is cured." SOAKS RIGHT IN AND LIMBERS UP STIFF JOINTS

Pharmacists Call it "Joint-Ease" Because it's For Swollen, Sore, Painful, Creaky Joints Only

It took a good many years to get together a combination of pain subduing and swelling reducing agents declared to be the one remedy that almost instantly penetrates through skin and flesh and starts right in to make swollen, inflamed, creaky, pain racked joints as good as new.

They call this new and wonderful preparation "Joint Ease" because the medical man who turned the trick, worked for years to perfect some low-priced remedy that would really benefit the millions of people who have one or more joints that need helpful attention.

So "Joint Ease" is prepared only for people who have a swollen, painful, creaky, distorted, or stiff joint whether it be in knee, elbow, shoulder, ankle, neck or finger and whether it is caused by rheumatism or something else.

Of course, it can't help but quickly put an end to such superficial ailments as lumbago, neuralgia, neuritis, aching muscles, stitch in the side, crick in the neck or sore feet because of its penetrating action, but what it is really recommended for is joint ailments of any nature whatever.

Ask for a tube of "Joint Ease". You can use it several times in one evening for quick results, because it goes right through the skin with only a few seconds rubbing. It surely is a swift penetrator and when it gets under the skin, it starts right in to clean up all joint trouble.

All druggists dispense it daily for about 60 cents a tube, as do first class druggists everywhere. At all druggists.

SENATOR CURTIS "PRINCIPAL" MENTIONED IN CODE MESSAGE

Republican Whip Identified as Mysterious Person Referred to in Telegrams to McLean

IRA E. BENNETT TESTIFIES

Editor McLean's Paper, Washington Post, Reveals Conference With Attorney General

WAS HELD ON FEBRUARY 14

Committee Also Learns Identity of Other Persons Mentioned in Messages

(By United Press)

Washington, March 7.—Senator Curtis, Kansas, Republican whip of the senate, today was identified as "the principal" mentioned in messages sent E. B. McLean, Washington publisher, at Palm Beach by Ira E. Bennett, editor of McLean's newspaper, the Washington Post.

At the same time, Bennett testified before the senate oil committee revealed he had a conference with Attorney General Daugherty on February 14 about the oil investigation.

Identification of "the principal" had been the cause of speculation for some days. Senator Hoffman, Alabama, said in the senate Tuesday that he believed "the principal" was President Coolidge.

The first message in which Bennett mentioned "the principal" was dated February 29, and said:

"Law principal. Delivered message. He says greatly appreciates and sends regards to you and Mrs. McLean. There will be no rocking of boat and no resignation. He expects reaction from unwarranted political attacks."

"Bennett"

"Another message needs a little explanation, Mr. Bennett," said Walsh in taking up this message and reading it aloud.

"Who is the principal?"

"Before I give you the name I'd like to say that the message might be misconstrued. The first sentence about 'the principal' had nothing to do with the rest of the message. About 'no rocking of boat' and 'no resignation'—that was my own opinion gathered at a White House press conference."

"The principal" was Senator Curtis of Kansas."

The committee today began to tear away the veil of mystery surrounding many of the telegrams exchanged between Edward McLean, Washington publisher and his employees in Washington, while McLean at Palm Beach was doing his utmost to avoid being put on the witness stand in the oil investigation.

From Bennett also the committee first learned that a person referred to in the telegrams as "apples" was Albert B. Fall, former secretary of Continued on Page Six

DAUGHERTY UNSHAKEN IN HIS DETERMINATION

Attorney General, After Cabinet Meeting, Says That He Has No Statement to Make

CLOSETED WITH COOLIDGE

(By United Press)

Washington, March 7.—Unshaken in his determination not to quit office under fire, Attorney General Daugherty came back to Washington today to face renewed demands for his resignation and to plan his defense before the senate committee which next week will begin investigating him.

Daugherty arrived shortly after 10 a. m., and went directly to the cabinet meeting. He said he had no statement to make.

"I have not talked since I left Washington and I'm not ready to begin talking—yet," he said.

After the cabinet meeting, Daugherty remained with President Coolidge for a few minutes.

When he came out, he was asked if the situation had changed.

"How do I know?" he responded. "I haven't seen anybody."

Daugherty went from the White House to his office.

RAIL TRAFFIC RESTORED

Wreck at Railroad Intersection Cleared up Thursday Afternoon

Traffic on the big Four railroad was restored through this city Thursday afternoon shortly after two o'clock when the wreckage at the intersection of that railroad and the C. I. & W. road was cleared away by using a large crane from an Indianapolis wrecking crew.

The wreck at the crossing happened yesterday morning at 8 o'clock, when a car loaded with crushed rock, jumped the rails, and turned over on its side. Trains on the road were delayed until after the wreck was cleared, and the Nickel Plate road also was blocked several hours. Trains on the C. I. & W. roads could pass the wreckage by using a side track.

TWO SOLONS DENY THEY ARE GUILTY

Representatives Zeihman of Maryland and Langley Of Kentucky Take Cognizance of Gossip

CHARGES ARE BANDIED ABOUT

Both Demand Specific Accusations, Declaring They Are Prepared To Answer in Detail

By Frazer Edwards
(U. P. Staff Correspondent)

Washington, March 7.—Arising to a question of personal privileges in the house today Representative John Langley, Kentucky, whose name has been connected by rumor with evidence of wrong doing presented to the Chicago Grand Jury, declared he had committed no crime or wrongdoing.

"I can not enter a specific denial of the rumors circulated about the capitol because I am not aware of the evidence presented," Langley said. "I confidently rely on a speedy vindication at the hands of my colleagues. I insist on an immediate investigation of the charges."

Langley demanded that a committee be appointed to delve into the allegations and bring the truth to light.

Washington, March 7.—Harrassed by knowledge that their names were being bandied about the halls of congress in sensational gossip, Representatives Frederick Zeihman, Maryland and John Langley, Kentucky today came forward with statements denying they are the "two congressmen" involved in evidence of bribery laid before a Chicago grand jury.

Both Zeihman and Langley demanded specific charges, saying they are prepared to answer in detail. Their voluntary statements followed adoption of a resolution calling on the department of justice to give the house the names of the two congressmen involved in the Chicago grand jury disclosures and the charges against them.

The two congressmen admit they are being mentioned as those investigated, but deny they are involved.

Zeihman, Republican, sixth district Maryland declared:

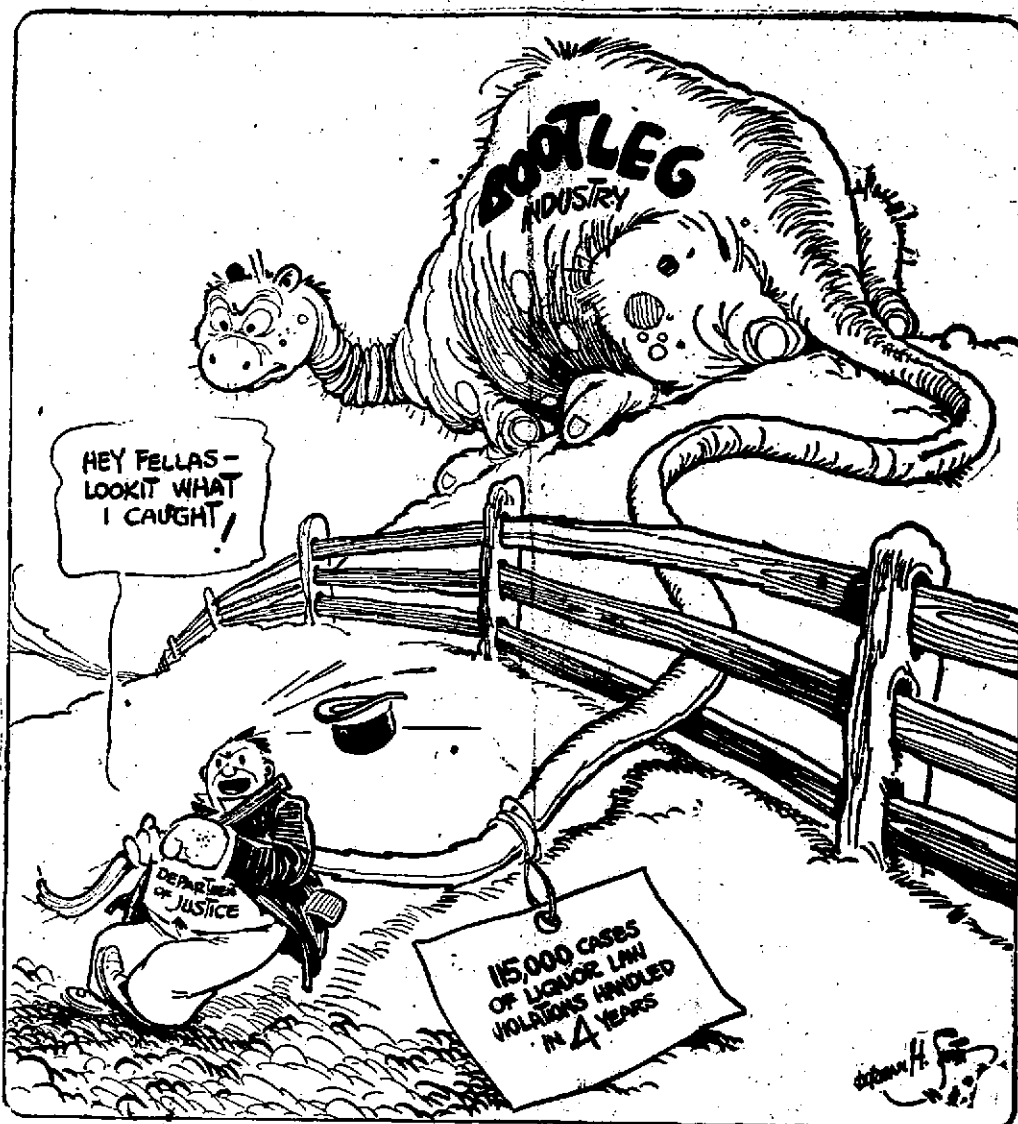

"When specific charges are made, if they are, I will make a statement in reply to them. Until such charges are made, I ask the public to withhold judgment on me."

Langley, Republican tenth Kentucky district, said:

"I am told that my name has been mentioned in connection with charges growing out of the Chicago grand jury investigation. I know I have not accepted any money or done anything improper. I have no further statement to make unless specific charges are made, when I will answer them in a way that will be comprehensive and unmistakable."

Two Presidential and Eleven Gubernatorial Candidates in Indiana Primary Free-For-All

Today was the first day for candidates to file their declaration for county offices, with Loren—Marti, county clerk, and several of the candidates who have previously announced themselves, appeared today and made the necessary application. Those who expect to be candidates in the primary election May 6, have a month in which to file their applications. The last day for filing is April 5.

The primary law in Indiana also sets today as the last opportunity for filing petitions in the primary election with the secretary of state for candidates for president, vice-president and governor.

Activity in the county political parties is expected to hum during the next few weeks, as both parties will probably have many candidates out for the various offices. So far the greatest number entered in any one race is in the Republican primary for the office of county clerk, as five persons have announced their intentions of seeking the nomination.

URGES ALL PEOPLE TO ACCEPT CHRIST

Dr. H. H. Halley Asserts Everyone Should Have Christ in Their Mind Much of The Time

READS THREE EPISTLES

Bible Reader Will Close Series of Meetings Tonight With the Book of Revelations

At the beginning of the service at the St. Paul's Methodist church Thursday evening, Dr. H. H. Halley, the Bible reader, again urged people to accept Christ as their Saviour. He urged people to be affectionate toward Christ, not merely accept Him and think that "you are saved, without any further effort on your part."

Dr. Halley expressed the belief that everyone ought to have Christ in their mind a great deal of the time, or in fact all the time. He also urged that people make it a habit of serving their Master, of reading the Bible and of attending Sunday School and church services. Christ wants to transform your life and there will come a time when you will have to make your decision, he said.

He read the two epistles of Peter and the book of Hebrews at the meeting last night and tonight he will close his series of readings with the Book of Revelations. It is expected that the church will be filled with people tonight, as his reading and interpretation of Revelations draws big crowds. The attendance last night was not quite so large, due mostly to the inclement weather.

In his explanation of First Peter, Dr. Halley stated that the Epistle was written probably about the year 65 to the churches of Asia Minor, which had been founded by Paul, and while Nero's persecution of Christians was in progress. Nero burned Rome in the year 64, and to divert suspicion from himself, he accused the Christians and instituted the first persecution that the church endured at the hands of Rome.

Peter wrote this epistle to encourage the Christians to endure, to be careful that no possible charge of rebellion against Rome be brought against them. He urged them not to become angry but to win by the beauty and harmlessness of their lives. He wanted to impress upon them to remember that they were citizens of an Eternal Kingdom to be revealed in the last time.

Dr. Halley in commenting on this Book stated that he thought this epistle was one of the most beautiful Continued on Page Two

AUTO FINANCING CONCERN IS FORMED

Continental Securities Company Organized With Local Men As Backers—After Location

TO HANDLE AUTOMOBILE PAPER

The Continental Securities company has been organized here, with Rush county men as its backers, it was announced today, and a first floor location in the business section of the city is being sought.

The company will be an automobile financing corporation and will handle the paper of automobile dealers which they accept in part payment, on automobiles.

The company expects to finance the automobile paper of Rush and five adjoining counties, with headquarters in Rushville, and has arranged for refinancing up to \$200,000, it is stated by representatives of the company.

The local organization will have the backing of the Carter Guarantee company of Kentucky, which has been in the automobile paper financing business for six years. This concern's success has been due, it is asserted to its bing able to discount the negotiable paper.

Representatives of the company say that they will keep in Rushville much of the automobile sales financing that has been going elsewhere. The concern will deal exclusively in automobile paper and will handle short term paper that the banks can not take care of, due to the great amount of clerical work involved.

Don't let constipation make you an invalid —relieve it with Kellogg's Bran

Few people realize how dangerous is constipation until this dread disease tears down their health. Did you know that more than forty serious diseases can be traced to constipation?

Keep your health, or restore it, with Kellogg's Bran, cooked and krummled. It brings relief in mild and chronic cases of constipation. It is effective because it is ALL bran. That is why it is recommended so highly by doctors. They know that only ALL bran can bring 100 per cent results. Part bran is, at best, only a halfway measure.

If eaten regularly, Kellogg's Bran will bring permanent relief—even in the most chronic case. It is guaranteed to do so. If it fails, your grocer will return your money.

Because it is ALL bran it sweeps, cleans and purifies the intestine. Like nature, it acts naturally. It makes the intestine function regularly.

Eat it every day—two tablespoonfuls—in chronic cases, with every meal. Eat it with milk or cream. Sprinkle it over other cereals. Cook it with hot cereals. Enjoy it in those wonderful recipes given on every package.

The flavor of Kellogg's Bran, cooked and krummled, is delicious. It is crisp, nut-like. Quite different from ordinary bran, which are so unpalatable. Kellogg's Bran is made in Battle Creek and served by the leading hotels and clubs everywhere. Sold by all grocers.

URGES ALL PEOPLE TO ACCEPT CHRIST

Continued from Page One

of the New Testament books and urged people to read it.

Continuing, the Bible reader stated, that Peter wrote his second epistle shortly before his death, to warn of coming apostasy, in which teachers in the church for money considerations, would permit licentiousness and the church would cease to look for the Lord's coming. He also wanted to warn that the Lord's Coming may be long delayed, because of God's desires that all be saved.

"Some doubt has arisen as to the writer of the Book of Hebrews," Dr. Halley said, "but in my belief it is the writing of Paul, written about 62 to 63 from Rome to the Jewish Christians in Palestine, who after accepting their Messiah, continued to be very zealous for the temple services. But it had been planned in a few years to destroy Jerusalem and the Temple services, because of the corrupt practices of the Jews, and for punishment the Jews were to be scattered throughout the different nations. Paul wrote this epistle to prepare them for the shock, and to explain to them that the temple ordinances and sacrifices were really no longer of any use for they had served the purpose, they had once and for all fulfilled in Christ and passed forever.

"Paul also wanted to impress upon the Jewish people that Christ's covenant had entirely displaced the old Mosaic Covenant. He explained the unity of Christ with man. Man is above angels, they are closer to God. Angels are only servants. Paul closes his writing with a fearful warning if the Jews rejected Christ for any reason, there would never be another Messiah, never another sacrifice for sin."

MOVIES

Last Appearance at Castle

It is not every motion picture director who, when called upon to stage some realistic fight, battle or encounter, is enabled to call into use some of the actual participants of a similar and more genuine scene, nor be afforded the opportunity of utilizing instruments of fighting which have actually played a part in such an occurrence.

The mutiny staged by Elmer Clifton, producer and director of "Down to the Sea in Ships", which comes to the Castle theatre the last time today on board the square-rigger, "Charles W. Morgan," was in no sense of the word a "strawberry festival", but a real he-man fight. Captain James A. Tilton, engaged as skipper of the

craft, which was engaged for an actual whale hunt in the Caribbean Sea, rehearsed with Mr. Clifton an actual mutiny which he participated in years ago, and which was staged with genuine and realistic fury, Captain participating in the fighting.

"Pioneer Trails" Princess

"Pioneer Trails" will be the attraction at the Princess Theatre today and Saturday. This is a David Smith production and has a notable cast, including Cullen Landis, Alice Calhoun, Bertram Grassby and Otis Harlan.

The story opens with a prologue showing the Dale family starting out from a midwestern village to seek a fortune in the gold fields of the far West. The party is attacked by Indians and all are killed save Jack, four-year-old son of Robert Dale. The action jumps twenty years and the main story opens with a number of dramatic sequences that keep the interest high. There are thrills, humorous situations and just a touch of pathos that gives the production flavor and makes it thrill with human interest. The love theme is given an unusual treatment in that the heroine is required to do much of the courting.

"The Lady in Ermine"

Beginning Monday night, March 10th with a Shrine Party, and continuing for only one week, the delightful and enchanting musical play, "The Lady in Ermine" will be seen at the Murat Theatre, Indianapolis under the direction of the Messrs. Shubert. New York critics named this play, "The Worthy successor to 'Blossom Time' and 'The Wonderful Daughter of The Merry Widow.'" There will be matinees Wednesday and Saturday.

"The Lady in Ermine" was an international success on the Continent and had long runs in London, Paris and Vienna. Its Continental success was duplicated in New York last season where it was seen at the Ambassador for one year. It comes here direct from its Chicago run of several weeks with the distinguished New York Winter Garden Company of singer and dancers, headed by Broadway's handsomest and most youthful star, Walter Woolf, baritone, Harry K. Morton, comedian, Zella Russell comedienne, Nancy Gibbs, prima donna, Shirley Sherman, Clarence Harvey, Rollo Grimes, Jr., Gladys Walton, Detmar Poppen, Timothy Daley, Isabelle Rodriguez and one of the largest ensembles on the stage today. There are sixty in the cast.

The twenty-two lifting and haunting musical numbers were composed by Jean Gilbert and Alfred Goodman, well known composers who have been responsible for many song hits. The book of "The Lady in Ermine" is by Frederick Lonsdale and Cyrus Wood, from the story of Rudolph Schanzler and Ernest Wellisch. The lyrics are by Harry Graham and Cyrus Wood.

99.9 Per Cent Efficient

Constant vigilance goes hand in hand with safety on the Pennsylvania Railroad. Thousands of tests are made every month to insure the observance of signals and operating rules by the men in charge of trains. During the last half of 1923, 493,000 such tests were made.

Some of the situations covered by these tests are the observance of "stop" and "caution" signals, the proper display of signals, the observance of speed regulations and the proper flagging of trains. This system has been in effect on the Pennsylvania Railroad for many years. It is designed to cover not only every conceivable development in ordinary operating conditions but also surprise situations not usually encountered.

It is a splendid tribute to the efficiency and the high morale of Pennsylvania employees—and a source also of profound satisfaction to the traveling public—that the results of these tests show that the number of "failures" is relatively insignificant—the record over a long period of months showing a 99.9 per cent performance.

Circleville Residents Express Appreciation For Help in Fire

Residents of Circleville whose homes were endangered last Monday afternoon when the Michael McDonald house burned to the ground, joined in issuing a statement today, thanking all those who worked so zealously and prevented the fire from spreading to adjoining property.

They thanked not alone the Rushville fire department, but the scores of volunteer fire fighters who came to their rescue.

The fire loss has renewed discussion among residents of the suburb concerning plans for fire protection. In some quarters, it has been suggested that a fire cistern be put down in the center of Circleville and a ditch be run from Flatrock river to supply it with water.

Thought Broadcasting

When they begin reading our thoughts by radio, which is not outside the pale of possibility, according to eminent physiologists, we will have to watch our step.

No longer can we think what we please of our enemies; no longer can we covet our neighbor's earthly possessions; neither can we envy our friends' expensive automobile, their success in life, or their costly homes.

Folks who thrive on secret hatreds which they harbor against those they dislike, who bear grudges on account of fancied wrongs, who store up in their moments alone, hard thoughts about people with whom they disagree—all of these will have to change their method of thinking.

Sounds ridiculous, and it may be improbable, but it's not impossible, that our innermost thoughts may be read as plainly as though we were writing them down on paper.

Some experiments have been conducted along this line. Thought-broadcasting was tried the other day by Northwestern, Antioch and Columbia universities' professors, and although 150 letters picked at random out of more than 4,000 received, with the exception of two correct replies to one test, were wide off the mark, the physiologists are reported not to be dismayed in the least.

The idea of projecting one's thoughts into the minds of tens of thousands of radio fans is novel, if not altogether practical, and shows what may be developed from radio in the not far distant future.

In one test, a professor pinched

the fourth finger of his left hand and then told his invisible audience he had a pain in one of his hands or arms. Two of the 150 letters located the exact spot; nearly eighty percent of the total placed it in the left arm.

The professor ate a beet and announced he was eating a morsel of food. Nearly everything except beets was mentioned. The professor then announced he was thinking of a number—664. Not a single answer was correct, although 994 and 489 were plentiful. Then the professor thought of a walrus and asked his audience to think of the animal pictured in his mind. Nearly every animal in a well-stocked zoo was named but not one thought of a walrus. Zebras and elephants led the procession.

All the letters will be opened, indexed and compared in the hope of showing a higher batting average for thought transmission and reception. Whatever the result of the tests, they will not be regarded as conclusive and the experiments will be carried further.

Don't Play Politics

The two most urgent public questions at present time are tax reduction and dealing with corruption which has been unearthed in official circles in Washington.

President Coolidge feels with all his fellow countrymen a depressing sense of humiliation at the gross betrayal of public interest that has been disclosed.

The taxation question as well as law or criminal action of officials performing public duty is a problem for both Republicans and Democrats. The people of the whole United States have an interest from the standpoint of lessening tax bills and securing honest administration of public affairs regardless of what party is in power.

The pity is that self-seeking politicians will attempt to use present situation to further political ends rather than to advance the best interest of our government.

We must register our approval of honest public officials and demand tax reduction if we expect to eliminate dishonesty in public office, or increasing tax bills.

Air Fund Restored

The Senate has restored to the post office appropriation bill the item of \$1,500,000 for maintaining the transcontinental air mail service through the next fiscal year. That is the route running from New York to San Francisco by way of Chicago and Omaha. The expediting of important mail by means of the airplane is greatly to be desired, but that reason for continuing the air mail service is perhaps not so important as the need for stimulating popular interest in aviation as a means for national defense. When the air mail is in operation there are a number of skilled pilots ready to take their places in our military organizations, the airplane industry is aided to the extent of supplying the postal needs, and improvements in the art of flying are suggested from time to time. From every point of view it is desirable that the air mail service shall not be abolished.

Good News For Ailing Women

Much has been said for and against proprietary medicines by the medical profession. It will interest every woman to know that in a recent country-wide canvass of over 121,000 purchasers of Lydia E. Pinkham's Vegetable Compound as to the results received from its use, the replies received showed that ninety-eight out of every one hundred women had been benefited by its use. Therefore every sick and ailing woman owes it to herself to give this remarkably successful remedy a fair trial.

People who forget to remember invariably remember to forget.

There is always a lot of discussion about who saw the first robin, but nobody ever raises a fuss about the person who saw the second one.

Perhaps it would be well to send for Dawes, since things at Washington seem to be about as bad as they are in Berlin.

Congressional investigations come about as near being perpetual motion as anything that has yet been discovered.

WHEN comparing prices of coffee—consider the cost PER CUP, not the price per pound!

If Phoenix Coffee made only as many cups per pound as cheaper coffee, the difference in cost per cup would be:

50 cups to a pound at, say, 50¢ per pound - 1¢ per cup
 50 cups to a pound at, say, 40¢ per pound 4 1/5¢ per cup

A saving of one-fifth of a cent per cup—
 But what a difference in the taste!

But—PHOENIX COFFEE makes more cups per pound than cheaper coffee, because it comes to you Vacuum Packed—fresh as the hour it was roasted—it's full strength and flavor preserved.

Every time you open a can of
 PHOENIX Vacuum Packed COFFEE
 you have a fresh roast.

In half-pound and pound cans.

If you're not satisfied, your grocer will
 refund purchase price.

REGIONAL BATTLES
WILL OPEN TONIGHT

Regionals Open Tonight

Tonight opens the four regional tournaments. The one that holds the interest for Rushville more than any of the other three, is at Richmond. Shelbyville, Anderson and Muncie, the three strongest teams in the state will be in action. Muncie and Shelbyville both can't win. The following is the schedule which begins tonight:

Friday

7:30—Anderson vs Stony Creek.
8:30—Arcadia vs Shelbyville.

Saturday

9:00—Mooreland vs Muncie.
10:00—Versailles vs Connersville.
11:00—Clayton vs Jeffersonville.
2:00—Morton vs Southport.
3:00—Winner at 7:30 vs Mt. Comfort.
8:30—Winner at 10:00 a. m. vs Winner at 11:00 a. m.
Winners of the 2:00, 3:00, 7:30 and 8:30 o'clock games go to the final tournament at Indianapolis, March 14 and 15.

Officials for the games will be Dale Ragam and Hugh Vandiver.

Dear Hittin' 'Em—Where does Arlington figure in this dope sheet for the girls' tourney? Someone says Arlington has practiced on a large floor every day this week and against a strong team too. Anyway, they'll bear watching.

Another Dumbell

Oh, Listen to The Band
That booster club is on the job good and strong. They're gonna send a band to Richmond. Atta boy, boosters. Keep it up.

—Side Lights, Connersville

Wonder where the crowd will sit when all those bands come in? Someone told us that Mr. Thissan will be on the door to see that the bands can do their playing on the outside.

Dear Hittin' 'Em—

New Salem doesn't have any school any more this week. They just let their girls have the whole building, the whole time. Do they practice? Not for two weeks! Don't you believe it! Anyway they'll bear watching.

—Same Dumbell

Two of the strongest teams in the state, Anderson and Shelbyville, will be seen in action against Stony Creek and Arcadia, respectively Friday night in the first session of the Eastern regional, says the Richmond Palladium. It would have been much better for Stony Creek and Arcadia, if they had met instead.

The Ikkniks Are Crossing The Bridge Before Time

That's gonna be a real earl at Richmond Saturday night if the dope runs true to form. Shelbyville and

Safe Fat Reduction

Reduce, reduce, reduce, is the slogan of all fat people. Get thin, be slim, is the cry of fashion and society. And the overfat woman, their hands in mortification and helplessness, revoluting at nauseating druggists, afraid of violent exercise, dreading the unworkable and unsatisfying diet until they hit upon the harmless Marmola Prescription and learn through it that they may safely reduce steadily and easily without one change in their mode of life, but harmlessly, secretly, and quickly reaching their ideal of figure, with a smoother skin, better appetite and health than they have ever known. And now comes Marmola Prescription Tablets from the same famous formula as the Marmola Prescription. It behooves you to learn the satisfactory, beneficial effects of this great, safe, fat reducer by giving to your druggist one dollar for a box, or sending a like amount to the Marmola Company, 4612 Woodward Avenue, Detroit, Mich., with a request that they mail to you a box of Marmola Prescription Tablets.

Muncie are scheduled to clash in the first game and Connersville will tangle with Clayton in the second game. Some basketball we'd say.

—Connersville News

Over at Connersville there is a team named after Side Lights. Wonder if they play anything like the old Tail Lights. How about it, E. I.?

—E. I.

JUST WHAT WE NEED, ALSO

Muncie will have a new \$125,000 gymnasium next year. After waiting for several years, Muncie finally saw the light and will build this spring. The new gym will seat nearly 5,000 people and will be quite a relief after having all the games in the high school gym which is too small and at the auditorium where the rafters hang down almost to the floor.

This Ought to be a Real Mix-up

Dear Hittin' 'Em—

One of the feature games of the season will be played at Blue Ridge Friday night when Moscow plays Milroy. It is an independent game, but high school players will be in the line-up. For Milroy the list includes Green, McCorkle, Raddell, McKee and Osterling. For Moscow the line-up will be N. Gosnell, P. Gosnell, C. Gosnell, T. Tillison and P. Tillison. Milroy high school eliminated Moscow from three tourneys and Gosnell-Tillison brothers have taken it upon themselves to avenge these defeats. However, it will be a third game for both teams as every player is an experienced basketball player. Means will officiate.

Yours, B. D. M.

Dear Hittin' 'Em—

Someone said that Orange and Fairview want a Fayette county team to win the girls tourney here Saturday, so they both came in and practiced on the Modern Appliance floor Wednesday afternoon. "Anyway Peaches Henry will bear watching."

SAME COW BELL

Milroy, Ind.

Dear Hittin' 'Em—

I want to thank you for the fairness with which you have conducted your column. I wish to add also that I was greatly shocked at seeing Rushville beaten in the sectional. We were certainly sorry that Rushville could not go further as this undoubtedly cut the attendance.

During my observation of every game played in the sectional, I was tempted to pick the star players as I saw them. In considering the all-around playing of the starts, I rank them as follows:

1. Gosnell, Moscow; 2. Baker, Manilla; 3. McNamara, Rushville; 4. McCorkle, Milroy; 5. Green, Milroy; 6. Helligross, Rushville; 7. Tillison, Moscow; 8. M. Craig, Raleigh; 9. Conelle, Rushville; 10. Readmond, Milroy.

Yours, Fannie Fandom

Dear Hittin' 'Em—

Do you remember that old stall (in the county barn) that Rushville pulled when she played Greensburg last before the county tourney? Car-thage girls are trying something similar. They say two of their best players are sick. "Anyway we bet they have some good reserves and will bear watching."

Yapping at Fight Managers

By HENRY L. FARRELL
(United Press Sports Editor)

New York, March 7—Dan Hickey, the veteran fighter, who is now teaching boxing at the New York Athletic Club, must be coming to the conclusion that in the handling and development of a young fighter it is impossible to be right with the public.

Hickey recently went to work with a young wrestler, Paul Berlenbach, who had come to the conclusion that there was no money in the grappling game and that the dough was in punches instead of holds.

Taking him slowly and teaching him carefully and thoroughly, Hickey brought out Berlenbach and produced a middleweight sensation. He ran up a list of twenty-four consecutive knockout victories. The victims, of course, were not prominent in the record books.

Advised on one side not to rush the youngster by throwing him in with experienced fighters, Hickey followed the natural impulse to build slowly on a solid foundation and he matched him with setups. All he got was the razzberry.

Violent protests were made that Berlenbach should not be exploited as a mauler as long as he was mauling only punching bags and an open demand was made that the fans should have to pay only to see him against a fighter who could give him something.

Hickey wisely closed his ears and went on giving his fighter the kind

of work he thought would benefit. He knew if he dropped him in with an old head who would make him look bad, he would destroy the confidence that the youngster was getting in himself and that he might permanently spoil him. It is much better to hear them howling for reasons why he was not fighting good ones than to hear himself condemned for ruining a good boy by asking too much of him.

In the fight business it seems that the gallery is not willing that a youngster should get a chance to learn. There are no demands made upon a baseball manager to send his prize rookie in to bat against the best pitcher in the league, until he has been able to learn something about major league baseball.

Pirpo was condemned a year ago when he was beating a lot of setups and when he answered the demand for a fight by signing with Jack Dempsey was criticized for taking a championship fight before he was ready.

The managers and advisers of Floyd Johnson were called fools when they took that promising young heavyweight and tossed him in against the best men in his class without putting him through a building-up process.

After Johnson had been knocked out two or three times he took a long rest and then announced that he was going to try a comeback. He naturally should have been conceded the right to start as he should have started in the first place, with some experience fights, but he was put on the pan for being sacked up against a couple of pushovers.

"I don't know anything I can get more enthusiastic about than Tanlac," says Mrs. Ella B. Hursell, 2712 Ashbury St., Evanston, Ill., who recently moved here from Chicago.

"Tanalac has been such a great help to me that I don't see how I could have gotten along without it. Before taking it I had no strength. I felt languid and tired and got up mornings feeling so badly that the

duties ahead looked like mountains to me. My troubles were due to indigestion, for I knew nothing but distress after eating.

"I now have a wonderful appetite, perfect digestion and splendid health, with energy and strength that makes life a pleasure. Tanlac is such a grand, good medicine that everybody should know about it."

PURDUE IS OUT OF THE RACE

Eliminated From Big Ten Championship Battle by Chicago

Chicago, March 7—Basketball championship of the Big Ten lies between Wisconsin, Chicago and Illinois with the elimination of Purdue from the title race here last night.

The Purdue five was defeated by University of Chicago cagers, 35 to 21. At no time was the Chicago quintet in danger.

The decisive tilt of the season is now the Wisconsin-Chicago game, the last of the season, at Madison, March 15. Maroons and Badgers each have lost 3 games. Should the Badgers win all 3 of the remaining games, two with Iowa and one with Chicago, they would win the championship.

Federal Grand Jury Returns Indictments in New York, Charging A Conspiracy

DAUGHERTY WAS APPROACHED

(By United Press)

New York, March 7.—A federal grand jury today returned indictments charging conspiracy to bribe against Gaston B. Means, Elmer W. Jarecke, his secretary, and Thomas Felder, a New York attorney, alleging an attempt to bribe attorney General Daugherty and Col. William Hayward, United States district attorney, in connection with the so called "glass factory basket company fraud."

Means' name has been mentioned several times in connection with the senate investigation of oil leases in Washington. He formerly was an agent of the department of justice. Prisoners convicted in connection with the Glass Casket fraud informed officers they raised \$65,000 when they first learned action was intended against them and delivered the money to Means, Jarecke and Felder on assurance the action could be prevented.

SOAKS RIGHT IN AND LIMBERS UP STIFF JOINTS

Pharmacists Call it "Joint-Ease" Because it's For Swollen, Sore, Painful, Creaky Joints Only

It took a good many years to get together a combination of pain subduing and swelling reducing agents declared to be the one remedy that almost instantly penetrates through skin and flesh and starts right in to make swollen, inflamed, creaky, pain racked joints as good as new.

They call this new and wonderful preparation "Joint Ease" because the medical man who turned the trick, worked for years to perfect some low-priced remedy that would really benefit the millions of people who have one or more joints that need helpful attention.

So "Joint Ease" is prepared only for people who have a swollen, painful, creaky, distorted, or stiff joint, whether it be in knee, elbow, shoulder, ankle, neck or finger and whether it is caused by rheumatism or something else.

Of course, it can't help but quickly put an end to such superficial ailments as lumbago, neuralgia, neuritis, aching muscles, stitch in the side, crick in the neck or sore feet because of its penetrating action, but what it is really recommended for is joint ailments of any nature whatever.

Ask for a tube of "Joint Ease". You can use it several times in one evening for quick results, because it goes right through the skin with only a few seconds rubbing. It surely is a swift penetrator and when it gets under the skin, it starts right in to clean up all joint trouble.

All druggists dispense it daily for about 60 cents a tube, as do first class druggists everywhere. At all druggists.

A Matchless Investment! At every 1924 Motor Show held to date this new low-priced Six Special Sedan has won highest praise. Its coachwork parallels that of costly custom-made bodies. Rich upholstery dignifies the interior. Deep seat cushions are softened by heavily-coiled steel springs. Companioning these substantial details is the Nash-perfected motor—silent, flexible, and powerfully responsive. And—the demand has outstripped production, so orders will be filled in rotation.
